

Health & Safety

Qualification Fact Sheet
Level 3 Award in Health & Safety for Supervisors
in the work place

Who is this qualification aimed at?

This Award explores all areas about which supervisors are required to have working knowledge to ensure compliance with Health & Safety legislation. Completion of the qualification should enable supervisors to design, implement and monitor a health and safety programme within a small to medium size organisation that has moderate risks.

What does it cover?

Holders of this qualification will have a good understanding of the hazards and risks in the work place and their possible effects, the importance of supervision and safe systems of work.

It covers:

- *The role of the supervisor*
- *Work equipment and their appropriate controls*
- *Hazards and risks relating to fire and electricity in the workplace*
- *Risks due to substances hazardous to health*
- *Hazards and risks due to manual handling and methods for reducing these risks*
- *Effect of noise and stress at work and methods for controlling this*
- *Identifying hazards and risks relating to the working environment and work equipment and relating to fire and electricity in the workplace*
- *Producing risk assessments*
- *Devising safe systems of work*
